PROFESSIONAL SUMMARY

I have over 5+ years of experience in UI and web development, with expertise **JavaScript, TypeScript, React JS, Next.js,** REDUX, Bootstrap, Material UI, HTML5, CSS3, and **SASS.**

- Experience in all phases of Software Development Life Cycle (SDLC) such as requirement analysis, implementation, and maintenance, and extensive experience with Agile and Scrum
- Proficient in integrating APIs, RESTful services using AXIOS and JSON
- Skilled in ReactJS Components, Forms, Events, Keys, Router, and Redux.
- Familiar with version control using Git, GitLab and Bitbucket.
- Focused on creating responsive and accessible web applications.

PROJECT EXPERIENCE

Project 3:

Title	: **BT - Learn GTM**(Go To Market)
Environment	: **NEXT.JS, SASS, TYPESCRIPT.**
Team Size	: **5.**

Description:

Redesigned the handset gallery and optimized the confirmation Page for 4 journeys. Integrated content from AEM with GraphQL. The Project focused on enhancing front-end/UI changes based on Figma designs.

Responsibilities:

- Developing Screens using Next JS, TypeScript and SASS.

- Performed unit testing to ensure code quality and functionality.

- Created reuseable components.
- Customized UI according to client's requirement.
- Improved user experience.
- Interacted with client s to understand fulfill project requirements.
- Facilitated Agile ceremonies to ensure project progress and alignment.

Project 2:

        Title   **: Sunrise-UPC.**
        Environment   **: NEXT.JS, SASS, TYPESCRIPT, STORYBLOK**
        Team Size   **: 12.**

Description:

       Sunrise-UPC is the wholly owned subsidiary of Liberty Global, is the largest private telecommunications company in Switzerland, and offers industry-leading mobile, Internet, TV, and fixed network services for private and business customers. We develop a user-friendly webpage and help them migrate their existing pages in AEM-Java to StoryBlok-Next.js

Responsibilities:

- Developing Screens using UI components like Next JS, SASS and StoryBlok.

- Using Typescript, object model, DOM manipulation and event handlers, TSX.

- Building reusable components for future use.
- Implementing business logic based on the requirement.
- Facilitated sprint planning, daily scrums, retrospectives, and stakeholders' meetings.
- Learn and understand user interactions.

Project 1:

        Title   **: SMART C Planners**
        Environment   **: REACT JS,CSS3, JAVASCRIPT, REDUX.**
        Team Size   **: 4.**

Description:
- It is an end-to-end project tracking web application for EPC companies. There are many stakeholders in the project such as project manager, warehouse manager, onsite engineering and supervisor.
- Each one of them has a different user interface. The application has many modules such as Construction planning, Procurement, Optimization billing of material, inventory and construction engineering.

Responsibilities:

- Developed Screens using UI components like React JS, Redux-saga, HTML5, and CSS.
- Building reusable components and front-end libraries for future use.
- Did wiring of the components with redux and redux saga.
- Integrate API using Axios and pass the information through context Api.
- Implemented routing for all the components developed. created and injected reducers and sagas in store

TECHNICAL SKILL SET:

Primary Skills : HTML5, CSS3,SASS, JavaScript, Next.js, React.js, ES6, React Bootstrap, AXIOS, REST API, Redux.
Tools : Visual Studio Code, Git,GitLab and Bitbucket

EDUCATIONAL QUALIFICATION.

- B.Tech (CIVIL ENGINEERING) from J.N.T.U, Kakinada.

PROFESSIONAL QUALIFICATION

Worked as a Software Developer at Ariatech IT Solutions PVT LTD from 7th January 2019 to 15th February 2022.
Worked as a Software Engineer at Hiyamee PVT LTD from 16th February 2022 to 8th July 2022.
Working as a Sr. Software Engineer at Tech Mahindra from 2nd Sep 2022 till now.
